

Comprehensive Backup

- Near-zero configuration for daily backup plans and target protection is up to four backups per day (or every six hours).
- Protection for Power Platform for Power BI workspaces, and Power Automate flows to the online or offline storage location of your choice. Support for Power Apps coming soon.
- Built-in business rules and filters enable you to quickly choose which content you want to backup.
- Store backups in our scalable Azure Storage with minimal configuration, or in your cloud or data center of choice with support for Microsoft Azure, Amazon S3, Dropbox, and any data destination accessible via Secure File Transfer Protocol (SFTP), Transfer Protocol (FTP) and any S3 compatible storage.

Granular Restore

- On-demand, granular recovery of Power BI workspaces and Power Automate flows to the online or offline storage location of your choice.
- Perform security rollbacks to undo unintended permissions changes.
- Monitor your daily changes, detect unusual activity as well as potential ransomware attack events at an early stage, investigate the issue preemptively, and quickly restore from a good backup point with ease.
